How Oceanview United Methodist Church Prevents Floor Damage

The Problem

Scratched and Scarred Tile

"Our church has a fairly good size cafeteria. The problem was that our tile floor kept getting scratched and scarred from the metal chairs that we have there. We have been dealing with this problem for 30 years. We've tried putting the little adhesive sticky tabs on the bottom of the chairs, but they always just kept peeling off."

The Solution

Expanded Technologies' Clear Sleeve Floor Protector

"The Clear Sleeve Floor Protectors from Expanded Technologies were the perfect solution. There isn't even a comparison between them and the temporary sticky tabs we were using previously. They are easy to just slip over the chair legs but are probably as permanent as any floor protection product you can get. They are a little more expensive up front, but will save us money in the long run, because they will prevent damage to our floors, and we don't have to keep buying more and more of them."

The Results

Reduced Wear, Noise, and Effort to Move Chairs

"As soon as we installed the Clear Sleeve Floor Protectors, everyone at the church could notice the difference. We have a lot of people who are older, and these products make it much easier for them to move chairs in and out for themselves. There is also a lot less noise. The downstairs area is poured concrete, and moving our chairs around used to make noise that people could hear throughout the building. Now, you can't hear them at all. You just slip the product on one time, and that's it! The floor isn't getting scratched, it's easy to move the chairs, and the noise is gone."

"Once you make the purchase, you do not have to worry about it. I have seen the different products Expanded makes, and everything is a step above in quality. Anything they make you can buy somewhere, but the quality of the big box stores is just so low on that type of inexpensive household item. With Expanded Technologies' products you spend a bit more, but you do not have to worry about it once you make a purchase."
