

Slip Over® Floor Savers

Tip: Place a bag of Slip Overs in hot water to make them more pliable and easier to install.

Benefits

- Aesthetically pleasing
- Last 1 – 3 years
- Protect floor from scratching
- Quieter rooms

Sizes 1¼" & 1½"

- 1¼" For use on 1" glides or smaller
- 1½" For use on 1" – 1¼" glides

Slip-On® Floor Savers

Use on legs with glides to prevent them from coming off.

Benefits

- Same as Slip Over® but easier to install
- Last 1 – 3 years

Note: For square legs, recommend the 1½" size. The legs cannot be larger than 1".

Black 1½" Replacement Chair Tips for walkers

- Developed for walkers
- Replaces tennis balls that carry allergens

To Install

Remove rubber tips that come with walkers and replace them with our tips.

Benefits

They work better than tennis balls, are aesthetically pleasing and are made of reinforced rigid plastic to prevent the tubes from cutting through.

Replacement Chair Tips with Felt

Use measuring tool to determine the correct size.

Uses

Tubular style legs—Bar stools, folding chairs, folding tables, etc.

To Install

Remove existing tip and replace with the correct size replacement chair tip.

Sizes ½", ⅜", ¾", ⅞" & 1"

Note: No adhesive is used in manufacturing. The felt is welded into the sleeve, so there is no chance of the felt separating or coming off.

Wrap Around™ Floor Savers

Provide floor protection for chairs with sled bases.

To Install

Always apply to a clean, dry surface. (Cleaning with alcohol is recommended)

Tip: Apply over existing plastic guide when possible.

Recommended For

Hardwood floors, VCT, vinyl, linoleum, finished concrete, and ceramic tile floors

Colors

Beige and brown

Sizes

1½" x 1⅞", 1⅞" x 1⅞"

CasterTire™ Floor Savers

- Convert hard plastic casters into soft floor saving wheels
- Flange needs to go to the outside.
- Practice before installing or presenting.

To Install

- Place a bag of CasterTire™ Floor Savers in hot water to make them more pliable.
- Start on the bottom and rotate wheel while installing.

Size

1¾" (Fits dual hard wheeled casters 1¾" – 2¼")

Custom Measuring Tool

Ensure Proper Fit

- Slip Over® Floor Savers—Use the holes on the measuring tool to determine the correct size to use.
- All other products—Slide leg or glide into the opening of tool until it makes contact. The measurement will be taken at the point of contact with the tool.

Show & Tell Sales Kits

Holds up to 25 different product samples.

Benefits

- Examine and test each product closely
- Samples are easy to find
- Each item is labeled with recommended surfaces, available sizes, colors, and packaging choices.

Gripper Doorstops

- Durable commercial design
- Convenient hook allows unit to be transported or stored on mop buckets, service carts, maid carts, scrubbers, etc.
(Very important because it provides a way to get around fire codes. Workers can keep the doorstop with them vs. leaving on the floor or under the door).
- Non-slip base is now part of the unit. No adhesives are used, so it will never separate.

To Install

Put foot behind doorstop and pull door over the slide plate until the door is tightly held in place.

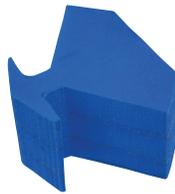

Available colors—Yellow and brown (new!)

Door Wedges

- Durable commercial design
- Works great on residential or commercial doors

Benefits

- Soft enough not to damage hinges or door frame
- Keeps floor clear during stripping or cleaning
- Easy to install without bending over

To Install

Commercial doors—Place wedge between the door and jamb above the second hinge. Place the longer side of the wedge toward the jamb to ensure it holds the door wide open.

Residential doors—The long side needs to go toward the door.

Color

Blue—Designed to be bright and easy to see, so it's not left behind.

NEW Clear Sleeve Floor Protectors

For wood leg chairs and tables where aesthetics are essential

Uses

Bar stools, table and chair legs

To Install

Determine the proper size and stretch sleeve over leg.

Benefits

- No adhesive is required to install or used in manufacturing.
- Clear sleeves blend with furniture leg.

Sizes

1/2", 3/4", 1", 1 1/4", 1 1/2" & 1 3/4"

Flip Down Door Stops

- **Easy to install**—The clip automatically adjusts to fit residential or commercial doors.
- Simply flip the arm down to engage and lift to disengage.

Benefits

- Does not damage the door
- Eliminates trip hazards
- Releases with force in case of emergency
- Clips onto the door, no tools needed

To Install

Slide clip onto bottom of door. Locate the proper hole setting. Insert hinge pins into the holes while arm is in upright position.

Available colors—Grey and tan (new!)

Sliders

- Use on carpet and ceramic tile
- Move furniture easily with 1/3 the effort
- Most extensive line available

Slide All™ Sliders

- Move and re-use—No adhesive required
- Move furniture or equipment easily, then remove.
- Great for contract cleaners, carpet installers, etc.

Sizes

2 3/4" & 5"

Colors

Black and grey

File Cabinet Sliders

Benefits

- File cabinets can be moved easily for cleaning and maintenance.
- Reduces or eliminates rust stains on VCT and carpet.

Sizes 1 3/4" & Large 4 1/2"

Heavy Duty Felt Pads

Most extensive and best line available

To Install

- Use alcohol to clean and wipe with dry cloth before installing.
- Apply to a clean, dry surface.
